

# APRIL VACATION PROGRAMS

As part of our effort to connect with youth around the city, community partners are offering an interactive schedule throughout the week of April 20-24. The schedule will include virtual sessions with a variety of activities like art, science, dance, drumming, parkour and more! Below are various links to multiple programs. Please click each link to learn when and where you can participate in each program, and whether programs are free or fee-based. Translation support is available for some programming. For more information please reach out to one of the translators below.

	<p>Parts and Crafts is offering the camp for kids aged 7-13. It is online only from 10am to 3pm with a lunch from 12-1pm. We are seeking to offer enrichment and creative engagement for elementary-school aged kids who are currently at home due to social isolation. Email Dina Gjertsen <a href="mailto:dina@partsandcrafts.org">dina@partsandcrafts.org</a> or click here <a href="https://www.amilia.com/store/en/parts-and-crafts/shop/programs/52599">https://www.amilia.com/store/en/parts-and-crafts/shop/programs/52599</a> to learn more and sign up for programming.</p>
<h2>Community Schools</h2>	<p>Community Schools will be offering an interactive schedule by school for our afterschool students to log into between 9:00am and 4:00pm. The schedule will include Google Meet sessions with activities such as live breakfast and lunch chats with teachers from your afterschool program or classroom along with art, science, dance, drumming, parkour and more! The Young People's Project is partnering with Somerville Public Schools to offer content for students to work on throughout April Break. We hope that by the end of the programming, students will have an introduction to Flagway™, which was a game developed by Bob Moses to create a mathematically rich gaming experience. Each day, they will build on math skills they were previously introduced to (prime and composite numbers, factorization, etc.) through interactive games and activities led by YPP Math Literacy Workers.
